Subject Index—Volume 87

No. 1, February 25, pp. 1–44
No. 2, April 25, pp. 45–102
No. 3, June 25, pp. 103–172
No. 4, August 25, pp. 173–242
No. 5, October 25, pp. 243–318
No. 6, December 25, pp. 319–396

A

Adenocarcinoma
  metastatic, vs. hepatocellular carcinoma, MOC-31 in, 295
  polymorphous low grade, of salivary glands, fine-needle aspiration biopsy of, 31
  vs. reactive mesothelial cells, MOC-31 in, 390
  villoglandular, of cervix, cytologic features of, 5
Adenocarcinoma in situ of cervix, with small cell (endometrioid) pattern, 254
Adenoma malignum, cervical, cytologic and cytochemical features of, 245
Adolescents, inner city, Pap smear abnormalities in, 184
Adrenal cortical carcinoma
  loss of heterozygosity in, 173, 176 (editorials), 231
  vs. renal cell carcinoma, anti-α-inhibin in, 168
AGUS (atypical glandular cells of undetermined significance) classification, 105, 243 (editorial)
Allelotyping, archival fine-needle aspirates for, 372
Angiomyolipoma
  hepatic, fine-needle aspiration biopsy of, 25
  renal, cytologic diagnosis of, 135
Anti-α-inhibin, in differentiation of adrenocortical cancer and renal cell carcinoma, 168
ASCUS classification/reclassification, 45, 319 (editorials)
  false-negative rate calculation and, 351
  for high grade squamous intraepithelial lesion, 56
  quality assurance and, 346, 351
  with ThinPrep vs. conventional Pap smear, 105
ASCUS LSIL Triage Study (ALTS), 45
Aspirate, breast, archival, in allelotyping, 372
Atypia, in breast fine-needle aspiration specimens, 1 (editorial)
Atypical glandular cells of undetermined significance (AGUS), 105, 243 (editorial)
Atypical squamous cells of undetermined significance (ASCUS). *See* ASCUS classification/reclassification
AutoPap system, for high grade squamous intraepithelial lesions, 354

B

Bile duct obstruction, endobiliary brush cytology in, p53 immunostaining of, 306
Biopsy
  bronchial, vs. fiberoptic transbronchial needle aspiration, 129
  punch, indications for, 149
Bladder cancer
  follow-up in, quick-staining urinary cytology and bladder wash image analysis in, 263
  transitional cell, cercariform cells in, 69
  urinary cytology for, accuracy of, in daily practice, 118
Bladder wash image analysis, in bladder cancer, in follow-up, 263
Breast aspirate
  archival, in allelotyping, 372
  Bcl-2 expression in, 224
  classification of, 1, 19
Breast cancer
  ductal carcinoma in situ, cytologic diagnosis and grading of, 203
  fine-needle aspiration biopsy in, *HER-2 neu* FISH and image analysis in, 312
Breast lesions
  fine-needle aspiration cytology of
    Cyto-Tek MonoPrep system for, 278
    diagnostic terminology for, 1 (editorial)
  spindle cell, fine-needle aspiration biopsy of, 359
Bronchial biopsy, vs. fiberoptic transbronchial needle aspiration, 129
Bronchial washings, vs. fiberoptic transbronchial needle aspiration, 129
Brush cytology, endobiliary, in bile duct obstruction, p53 immunostaining of, 306

C

N-Cadherin, in mesothelioma, ThinPrep study of, 83
Cercariform cells, in transitional cell carcinoma, 69
Cervical smear. *See* Papanicolaou smear
Cervix
  adenocarcinoma in situ of, with small cell (endometrioid) pattern, 254
  adenoma malignum of, cytologic and cytochemical features of, 245
  high grade squamous intraepithelial lesion of, rescreening for, 45 (editorial), 56
  villoglandular adenocarcinoma of, cytologic features of, 5
Children. *See also* Adolescents
  neuroblastoma in, molecular characterization of, 60

Chromophobe renal cell carcinoma, cytomorphologic features of, vs. of renal oncocytoma, 161
Clear cell tumors, metastatic, fine-needle aspiration cytology of, 380
Cytologic fluids, telomerase activity in, 93
Cytopathology, subspecialty model of, 43 (letter)
Cyto-Tek MonoPrep system, for breast aspirates, 278

D

DNA ploidy, in papillary thyroid cancer, image analysis for, 155
Ductal carcinoma in situ, cytologic diagnosis and grading of, 203

E

Endobiliary brush cytology in, in bile duct obstruction, p53 immunostaining of, 306
Endobronchial needle aspiration, vs. bronchial biopsy and washings, 129
Endometrial papillary serous carcinoma, in cervical smears, cytomorphology of, 12
Erratum, 395
Ewing sarcoma, extraskeletal, cytology of, 141

F

False-negative rate, calculation of, Pap smear rescreening in, 351
  ASCUS reclassification for, 346
Fiberoptic transbronchial needle aspiration, vs. bronchial biopsy and washings, 129
Fibromyxoid sarcoma, low-grade, cytologic features of, 75
Fine-needle aspirate(s)
  anti-α-inhibin in, in adrenocortical carcinoma vs. renal cell carcinoma, 168
  archival, for tumor allelotyping, 372
  breast
    Bcl-2 expression in, 224
    classification of, 1, 19
  of papillary thyroid cancer, image analysis of, 155
  telomerase activity in, vs. in biopsy specimens, 210
Fine-needle aspiration biopsy/cytology
  of adrenal cortical carcinoma, loss of heterozygosity and, 231
  of breast
    Cyto-Tek MonoPrep system, 278
    diagnostic terminology for, 1 (editorial), 19
    in ductal carcinoma in situ, 203
    HER-2 neu FISH and image analysis in, 312
    nonpalpable, with ultrasound guidance, 19
    of spindle cell lesions, 359
  of chromophobe renal cell carcinoma, 161
  in differentiation of hepatocellular carcinoma from metastatic adenocarcinoma, MOC-31 in, 295
  of hemangiopericytoma, 190
  of hepatic angiomyolipoma, 25
  of hepatocellular carcinoma, 270
  of insular thyroid carcinoma, 196
  of low grade fibromyxoid sarcoma, 75
  of lung cancer, vs. bronchial biopsy and washings, 129
  of malignant lymphoma, 322
    with REAL classification, 325
  of mantle cell lymphoma, vs. follicle center lymphoma, 216
  of metastatic clear cell tumors, 380
  of neuroblastoma, for molecular characterization, 60
  of polymorphous low grade adenocarcinoma of salivary glands, 31
  of renal angiomyolipoma, 135
  of thyroid, with ultrasound guidance, 299
  of transitional cell carcinoma, cercariform cells in, 69
  for transplant recipients, 286
Flow cytometry, in papillary thyroid cancer, image analysis for, 155
Fluorescence in situ hybridization (FISH)
  HER-2-neu, in breast cancer, 312
  in neuroblastoma, fine-needle aspirate for, 60
Follicle center lymphoma, vs. mantle cell lymphoma, fine-needle aspiration cytology of, 216

G

Ganglioneuroblastoma, molecular characterization of, fine-needle aspiration cytology for, 60
Grading, of ductal carcinoma in situ, 203
Gynecologic surgery, for benign disease, peritoneal washing cytology for, 259

H

Hemangiopericytoma, fine-needle aspiration cytology of, 190
Hepatic angiomyolipoma, fine-needle aspiration biopsy of, 25
Hepatocellular carcinoma
  vs. metastatic adenocarcinoma, MOC-31 in, 295
  well-differentiated, cytodiagnostic criteria for, 270
HER-2 neu fluorescence in situ hybridization, in breast cancer, 312
High grade squamous intraepithelial lesions
  AutoPap for, 354
  retrospective screening for, 45 (editorial), 56
HIK1083, in cervical adenoma malignum, 245
HMB-45, vs. MART-1, in melanoma, 37

I

Image analysis
  bladder wash, in bladder cancer, in follow-up, 263
  of fine-needle aspirates, in papillary thyroid cancer, 155
Image cytometry, for neuroblastoma, fine-needle aspirate for, 60

K

Keratins 8 and 17, Pap smear immunostaining with, 87
Kidney. *See under* Renal

L

Liquid-based cytology, for cervical cancer screening, 48
Loss of heterozygosity analysis
  in adrenocortical carcinoma, 173, 176 (editorial), 231
  archival fine-needle aspirates for, 372
Low grade fibromyxoid sarcoma, cytology of, 75
Low grade squamous intraepithelial lesions, in inner city adolescents, 184
Lung cancer, fiberoptic transbronchial needle aspiration vs. bronchial biopsy for, 129
Lymphoma
  fine-needle aspiration cytology of, 322
    REAL classification for, 325
  mantle cell, vs. follicle center lymphoma, fine-needle aspiration cytology of, 216

M

Malignant lymphoma. *See* Lymphoma
Mantle cell lymphoma, vs. follicle center lymphoma, fine-needle aspiration cytology of, 216
MART-1, vs. HMB-45, in melanoma, 37
Mesothelioma, N-cadherin in, ThinPrep study of, 83
Metastatic adenocarcinoma, vs. hepatocellular carcinoma, MOC-31 in, 295
Metastatic clear cell tumors, fine-needle aspiration cytology of, 380
Microdissection, for adrenal cortical carcinoma, 231
MOC-31
  in differentiation of adenocarcinoma and reactive mesothelial cells, 390
  in differentiation of hepatocellular carcinoma and metastatic adenocarcinoma, 295

N

Neuroblastoma, molecular characterization of, fine-needle aspiration cytology for, 60

O

Oncocytoma, renal, cytomorphologic features of, vs. of chromophobe renal cell carcinoma, 161
1p, in adrenal cortical carcinoma, 231

P

p53, in tall cell variant of papillary thyroid cancer, 238
p53 immunostaining, of endobiliary brush cytology, 306
Papanicolaou smear(s)
  abnormal findings on, in inner city adolescents, 184
  in adenocarcinoma in situ, 254
    with small cell (endometrioid) pattern, 254
  in adenoma malignum, 245
  AGUS classification in, 243 (editorial)
  ASCUS classification/reclassification of, 45, 319 (editorials)
    false-negative rate calculation and, 351
    for high grade squamous intraepithelial lesion, 56
    quality assurance and, 346, 351
    with ThinPrep vs. conventional Pap smear, 105
  conventional, vs. Thin Prep, 105
  endometrial papillary serous carcinoma in, cytomorphology of, 12
  false-negative results in, 45 (editorial)
    ASCUS reclassification for, 351
    for high grade squamous intraepithelial lesion, 45 (editorial), 56
  keratin 8 and 17 immunostaining in, 87
  vs. liquid-based cytology, 48
  observer variation in, vs. with PAPNET Testing system, 178
  quality of, detection of abnormalities and, 103 (editorial), 113
  Thin Prep. *See* Thin Prep
Papillary serous carcinoma
  cervical, vs. villoglandular adenocarcinoma, 5
  endometrial, in cervical smears, 12
Papillary thyroid cancer
  fine-needle aspirates of, image analysis of, 155
  tall cell variant of, 238
PAPNET Testing System, observer variation in, vs. in conventional Pap smear, 178
Peritoneal washing cytology, in surgery for benign disease, 259
Pleural effusion, MOC-31 analysis of, in differentiation of adenocarcinoma and reactive mesothelial cells, 390
Polymerase chain reaction
  for adrenal cortical carcinoma, 231
  for telomerase activity, 93, 210
Polymorphous low grade adenocarcinoma of salivary glands, fine-needle aspiration biopsy of, 31
Punch biopsy, indications for, 149

Q

Quality assurance, ASCUS reclassification and, 346, 351

R

Renal angiomyolipoma, cytologic diagnosis of, 135
Renal cell carcinoma
  chromophobe, cytomorphologic features of, vs. of renal oncocytoma, 161
  metastatic clear cell tumors and, fine-needle aspiration cytology of, 380
Revised European-American classification of lymphoid neoplasms (REAL), 216, 325

S

Salivary glands, polymorphous low grade adenocarcinoma of, fine-needle aspiration biopsy of, 31
Sarcoma
  Ewing, extraskeletal, cytology of, 141
  fibromyxoid, cytologic features of, 75
Squamous intraepithelial lesions
  high grade
    AutoPap for, 354
    retrospective screening for, 45 (editorial), 56
  low grade, in inner city adolescents, 184
Subspecialty model, of cytopathology, 43 (letter)
Surgery, for benign disease, peritoneal washing cytology in, 259

T

Tall cell variant, of papillary thyroid cancer, 238
Telomerase activity
  in cytologic fluids, 93
  diagnostic utility of, 210
  in fine-needle aspirate vs. biopsy specimens, 210
ThinPrep technique, 48
  in cervical cancer screening
    vs. conventional Pap test, 105
    population-based study of, 48
  in mesothelioma, N-cadherin in, 83
Thyroid cancer
  insular, cytopathology of, 196
  papillary
    fine-needle aspirates of, image analysis of, 155
    tall cell variant of, 238
Thyroid lesions, ultrasound-guided fine-needle aspiration biopsy of, 299
Transbronchial needle aspiration, vs. bronchial biopsy and washings, 129
Transitional cell carcinoma. *See also* Bladder cancer
  cercariform cells in, 69
  urinary cytology for, accuracy of, in daily practice, 118
Transplant recipients, fine-needle aspiration cytology for, 286
TRAP assay, diagnostic utility of, 210
Tumor allelotyping, archival fine-needle aspirates for, 372

U

Ultrasound-guided fine-needle aspiration biopsy
  of nonpalpable breast lesions, 19
  of thyroid, 299
Urinary cytology
  accuracy of, in daily practice, 118
  quick-staining, in bladder cancer, in follow-up, 263
Urothelial cancer, urinary cytology for, accuracy of, in daily practice, 118

V

Villoglandular adenocarcinoma of cervix, cytologic features of, 5
